

Recyclable Camera
System — 10

X-ray
1st electronic circuit for
- ~~electronic circuit~~ for

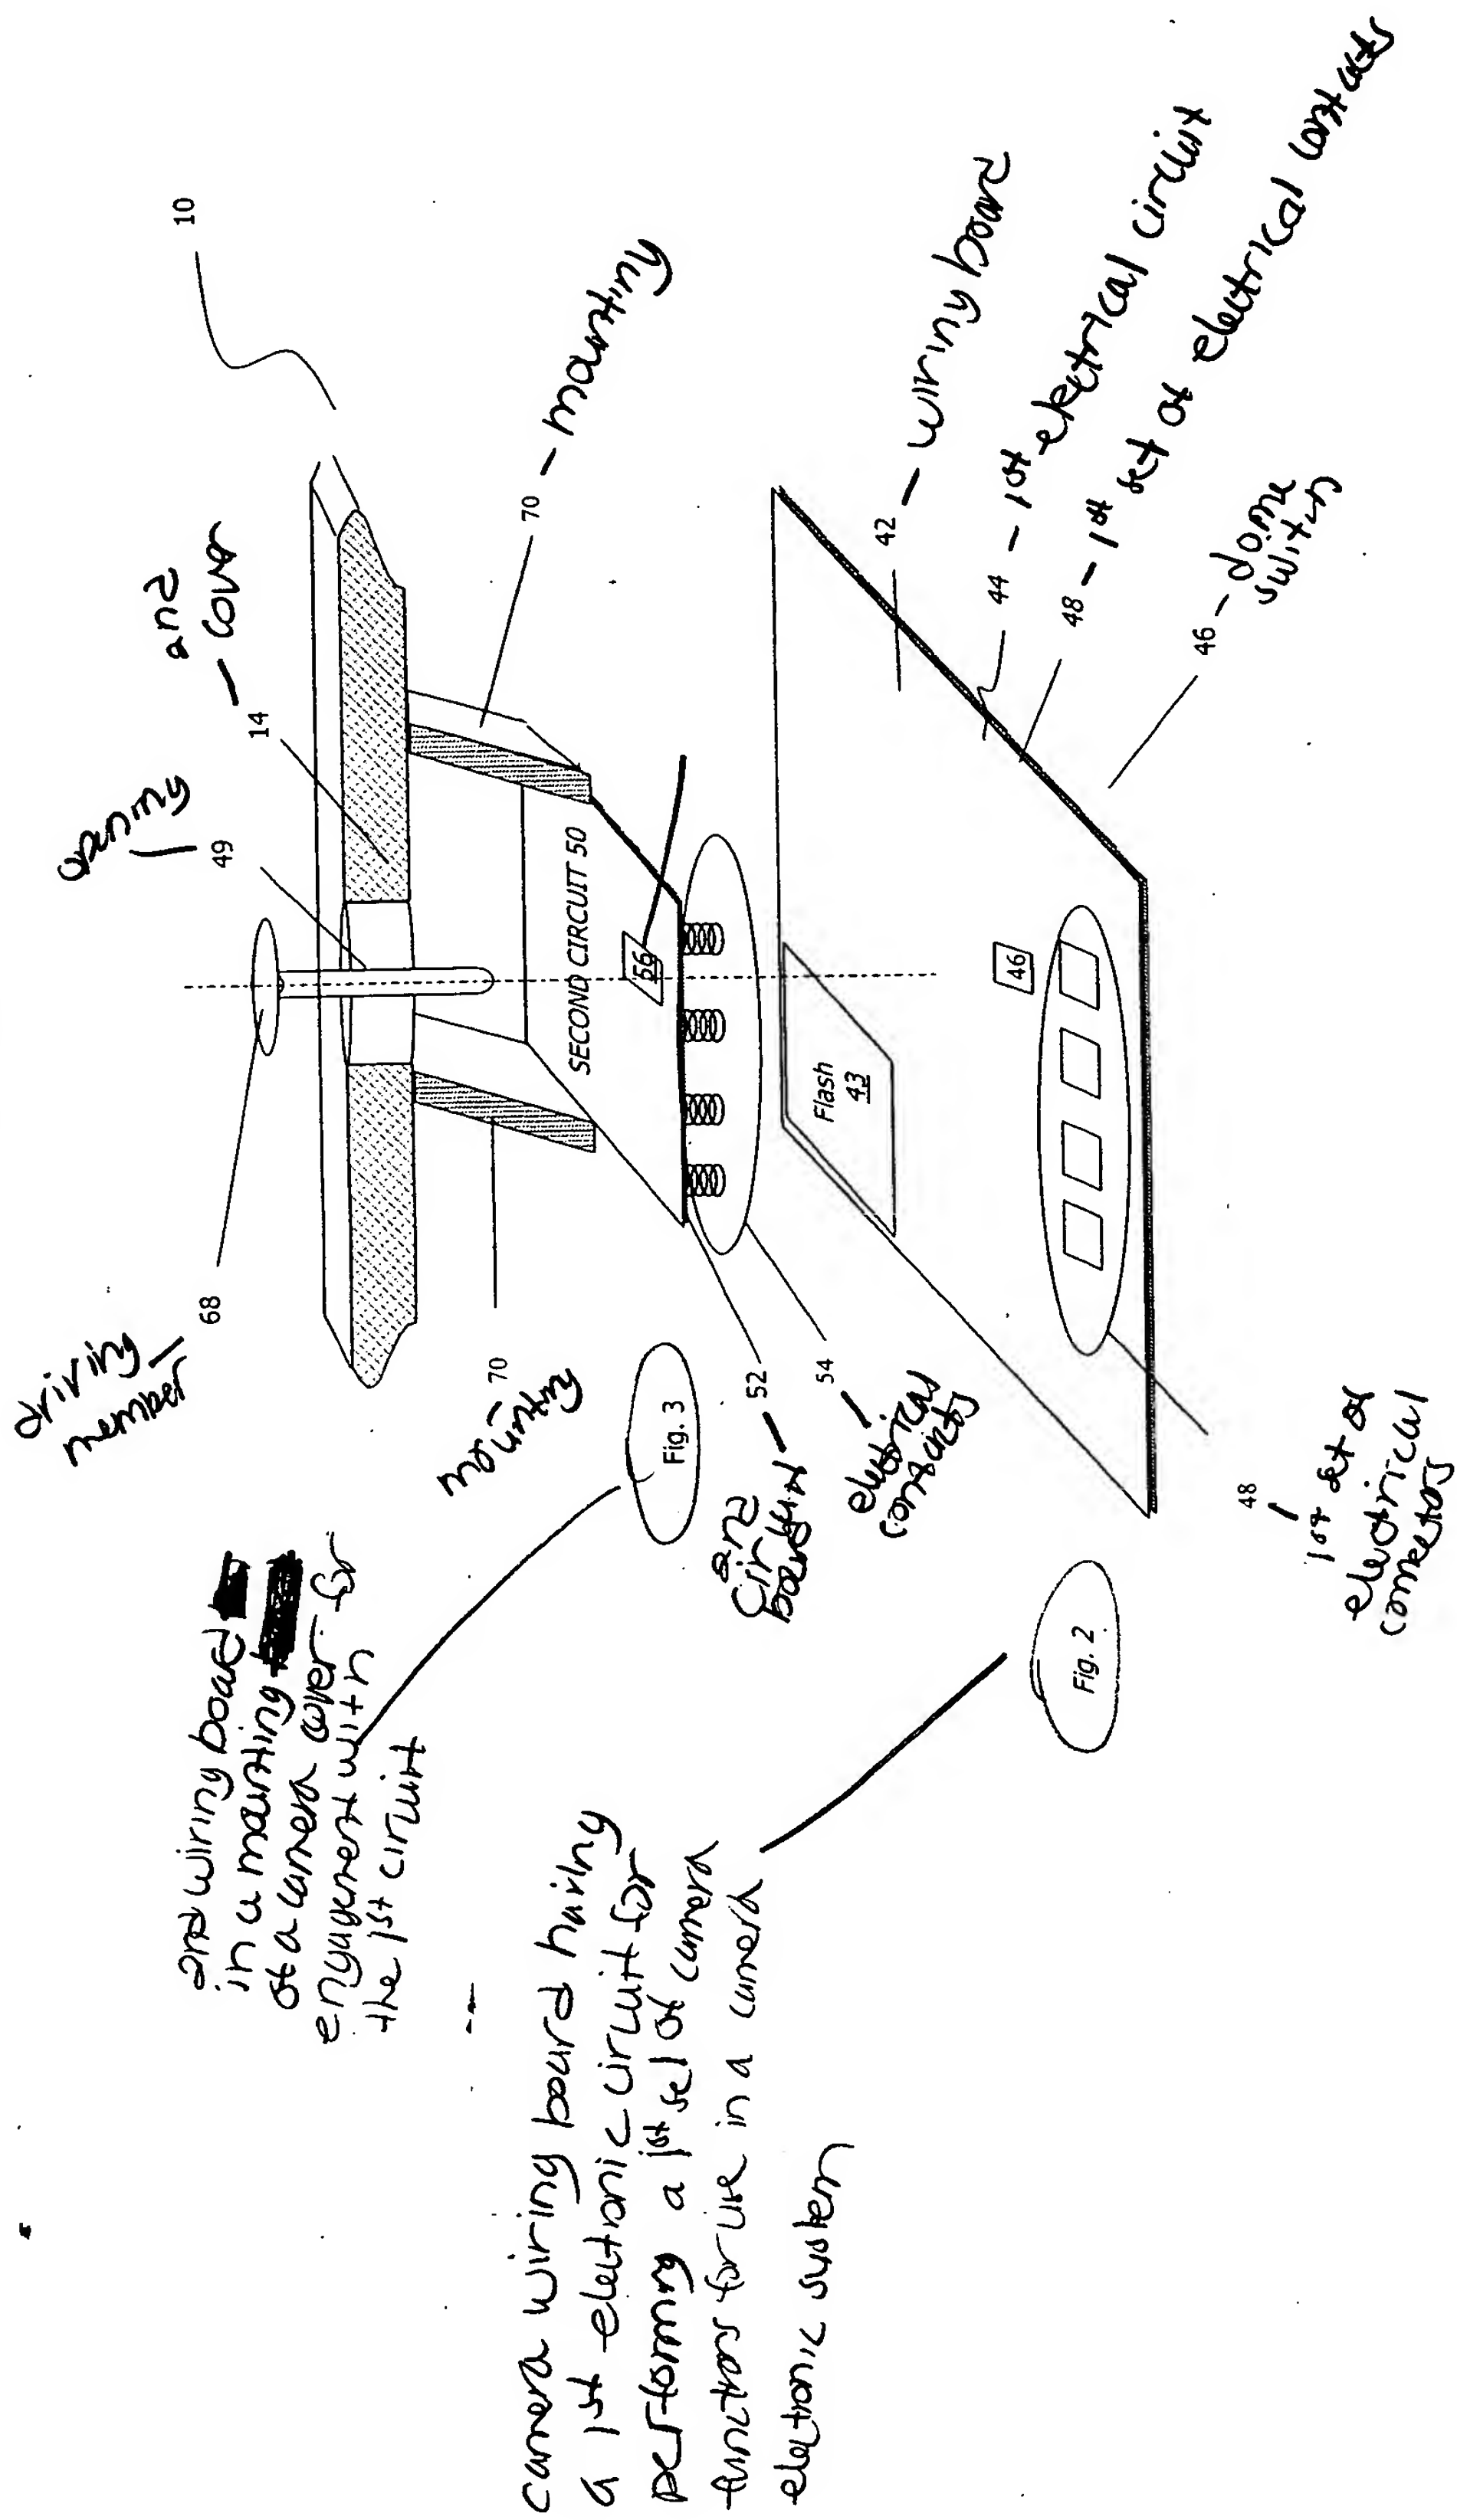

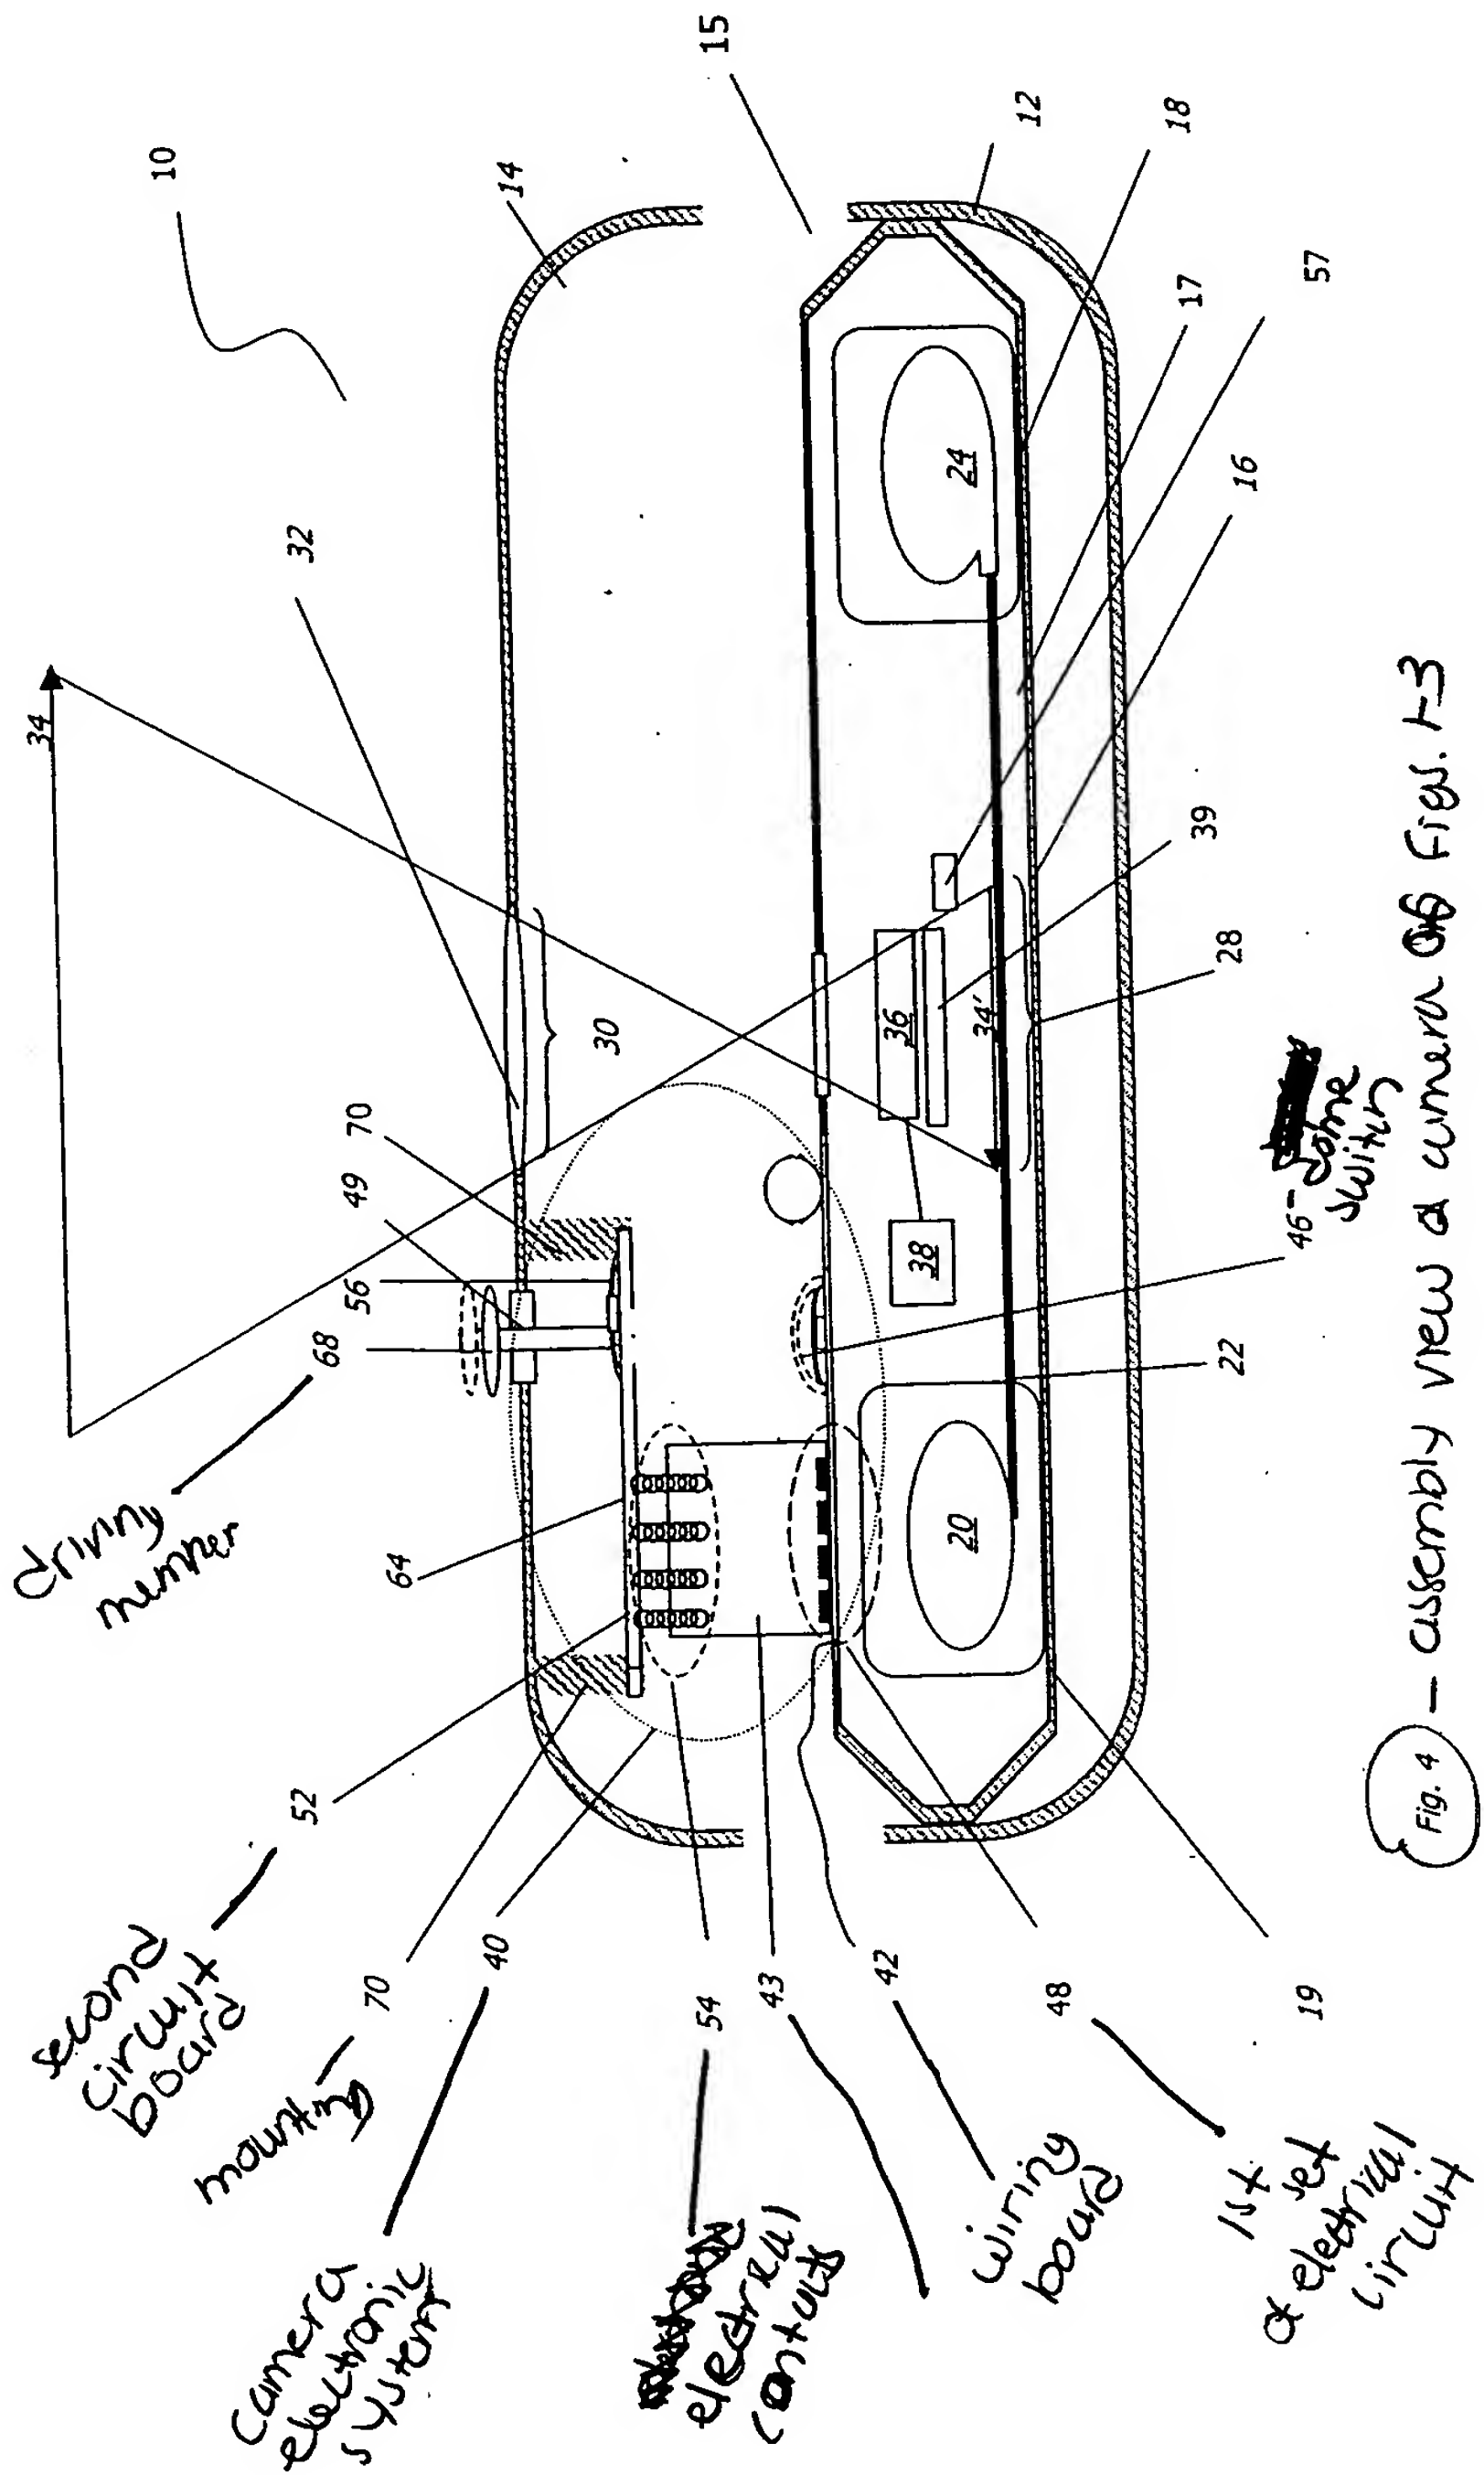

FIG. 4 - assembly view of camera of FIG. 1-3

FOOT LOCK

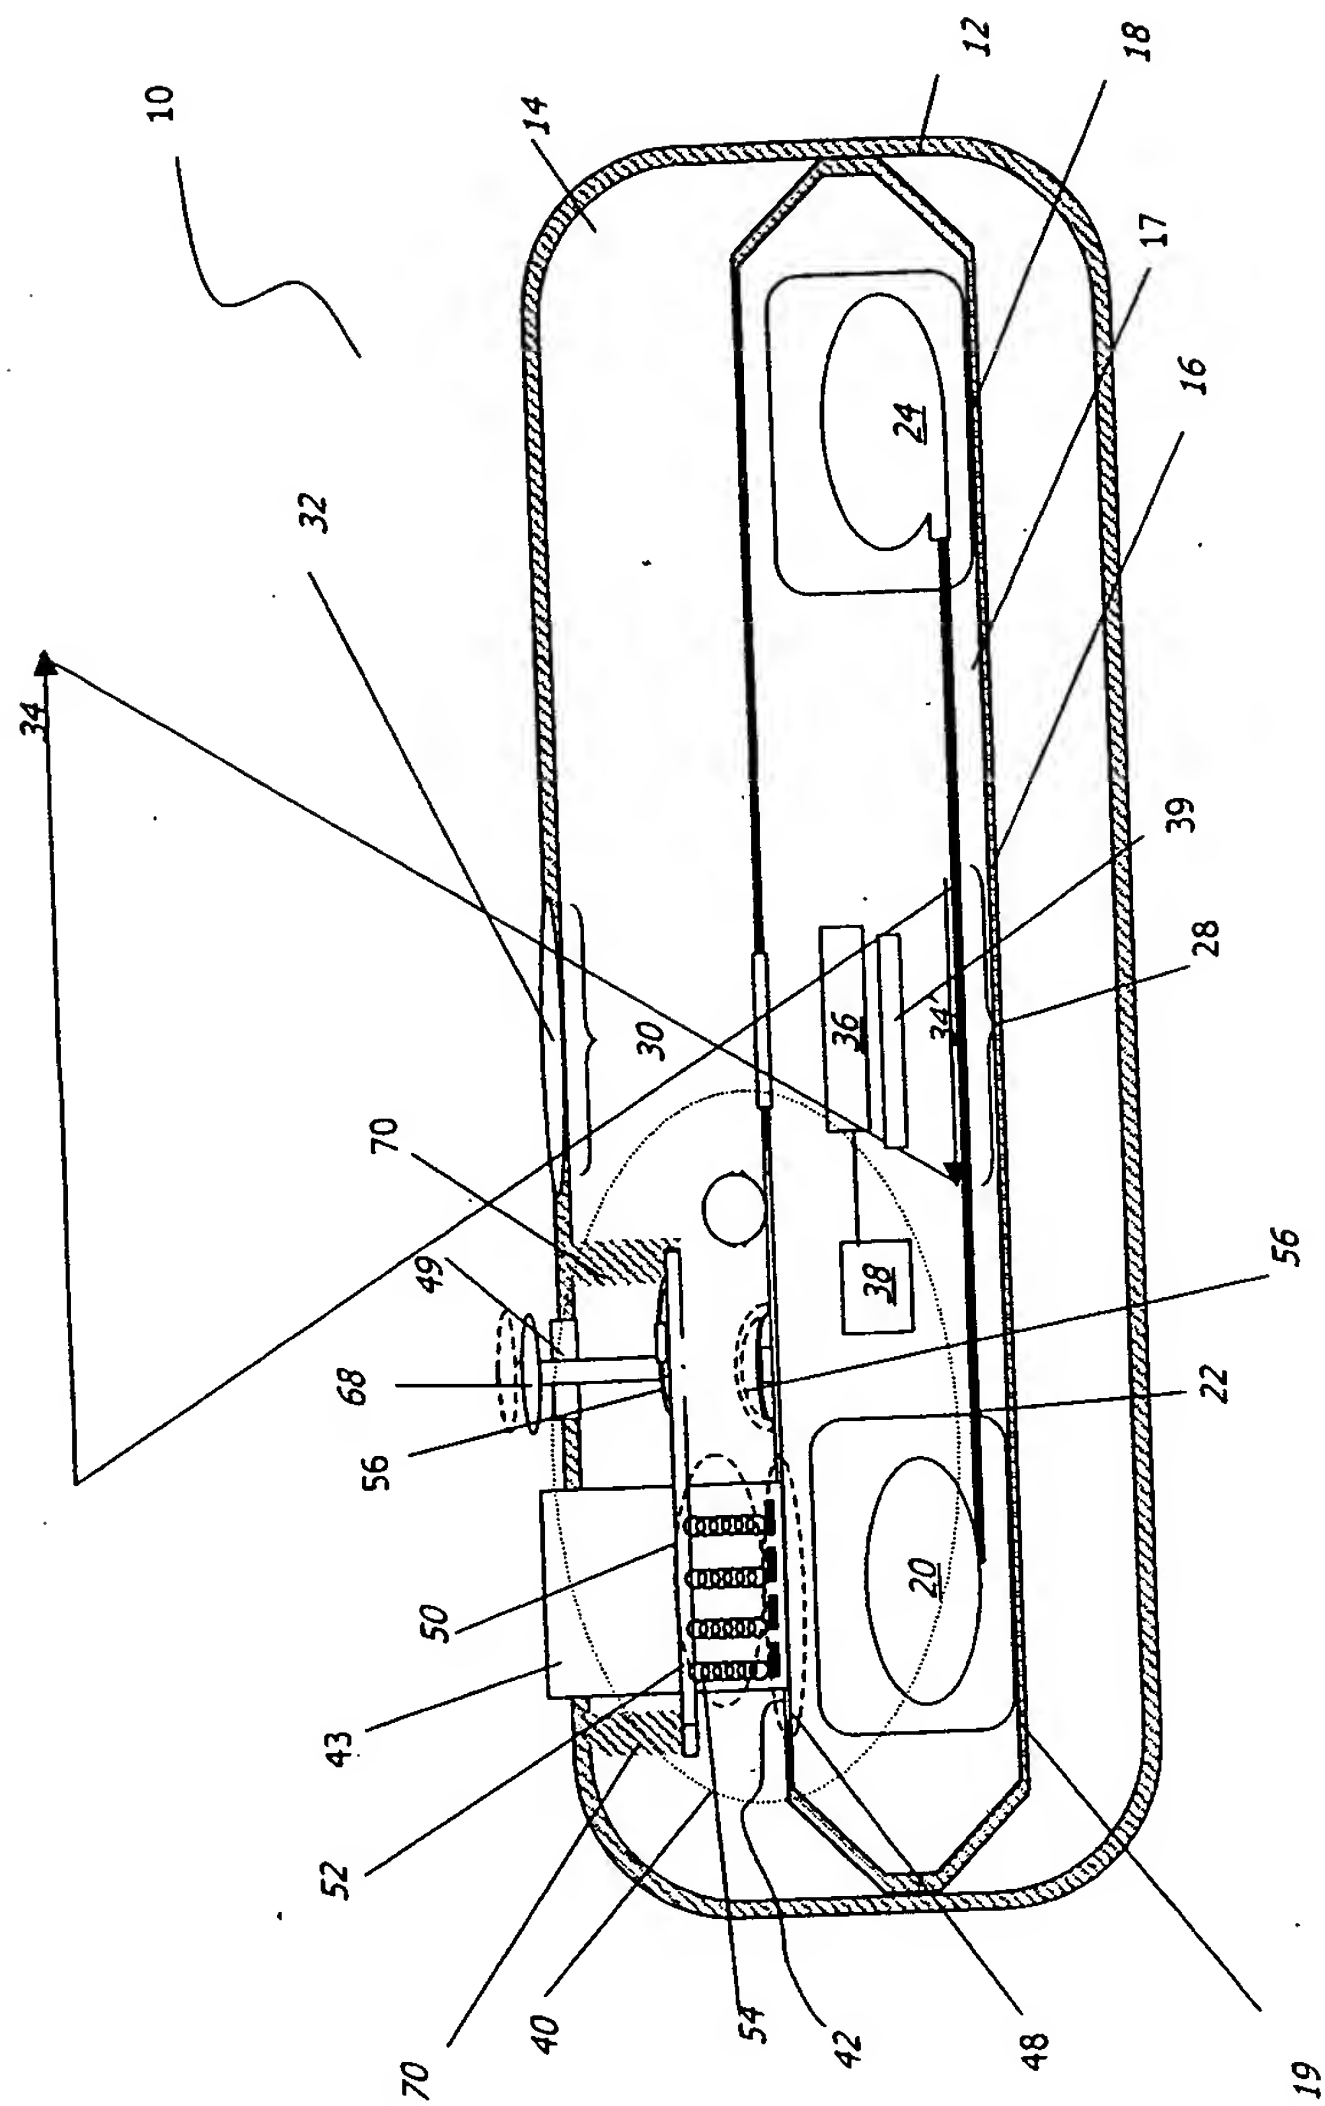

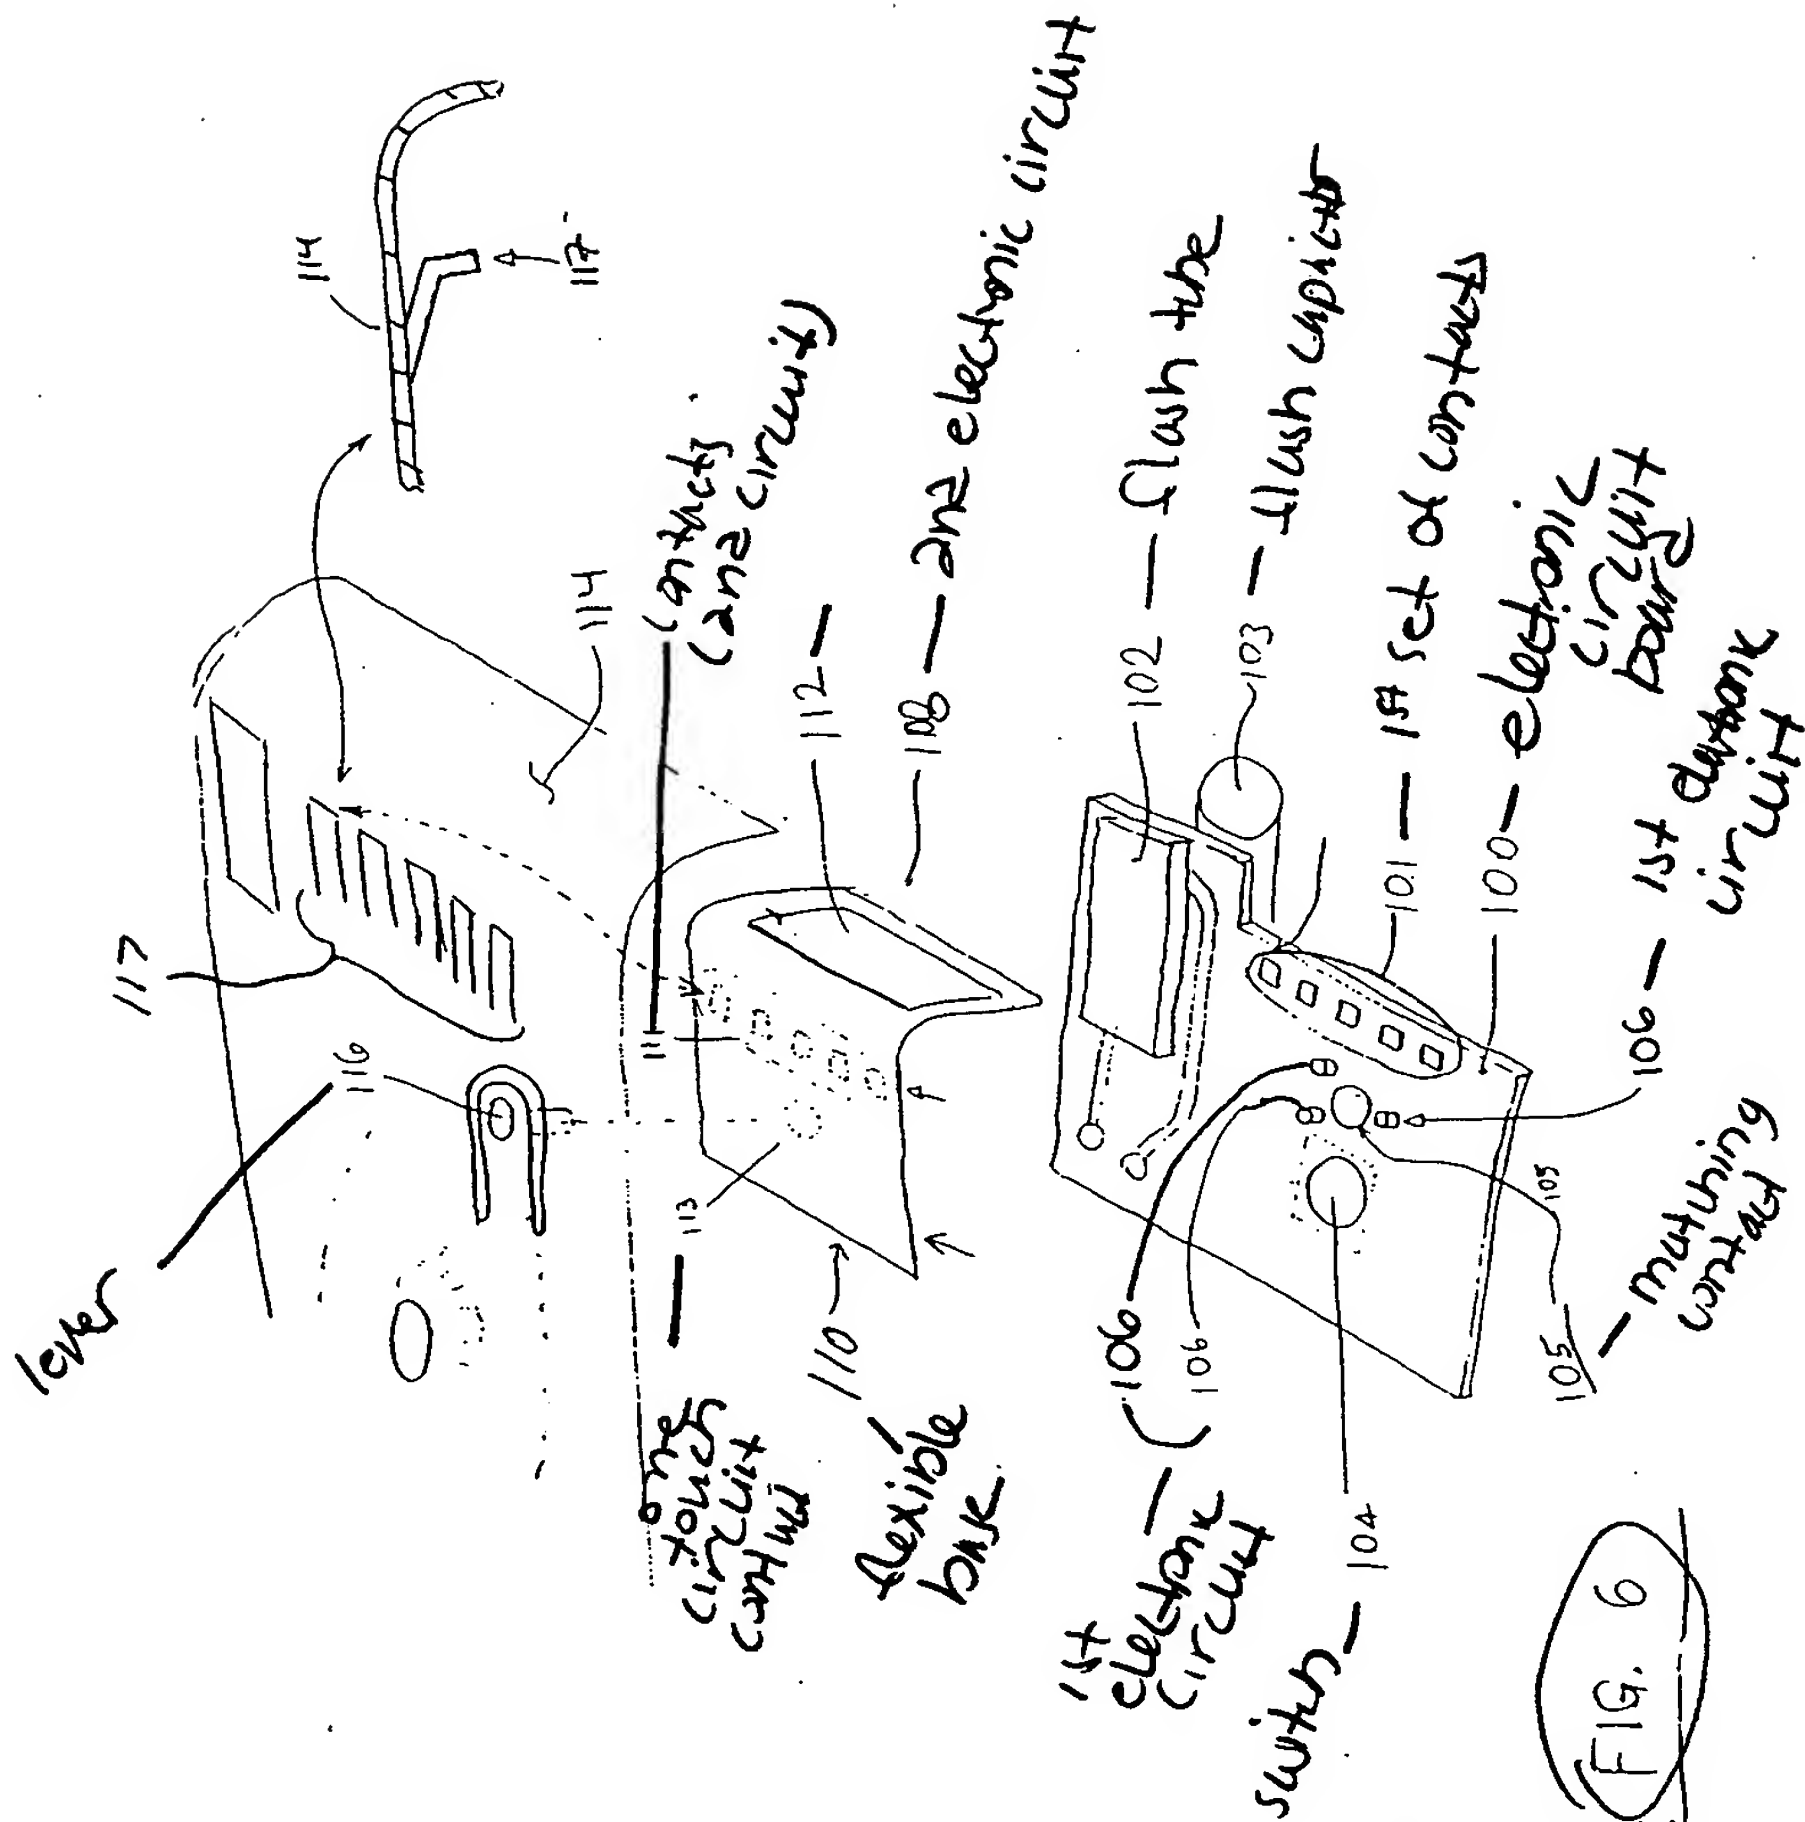

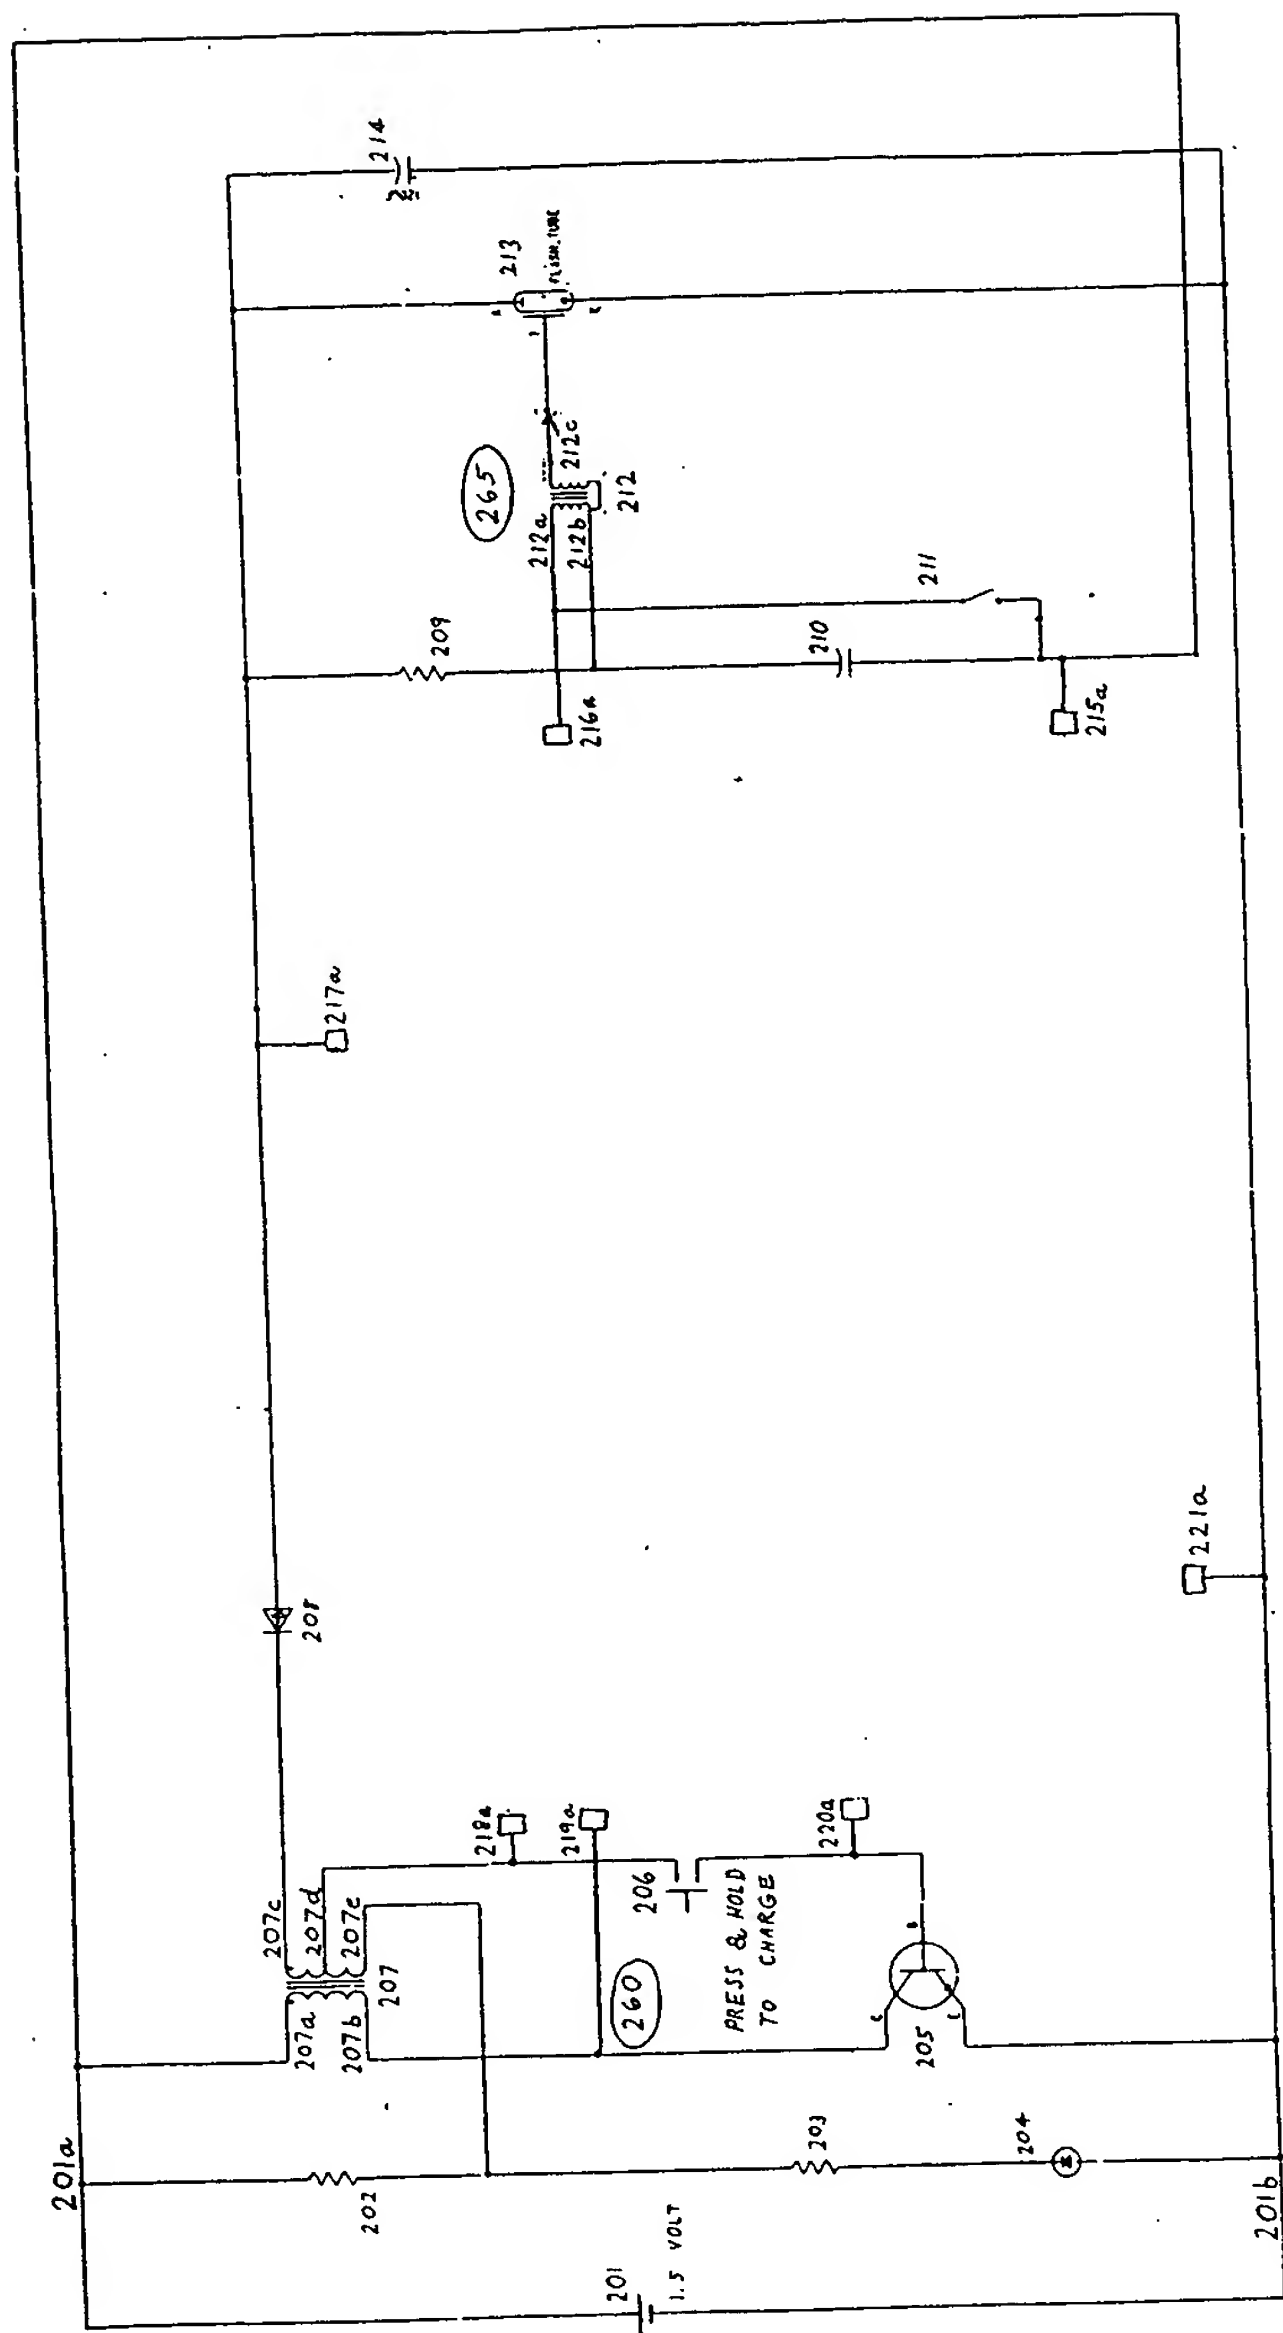

Fig. 5 — assembled view of the camera of Figs 1-3

10033560-12704

~~embodiment of present invention where a flex circuit is used~~

FIG. 7

an embodiment of
a 1st circuit for
performing a preset
of camera functions &
having contacts.

FIG 7

FIG. 8

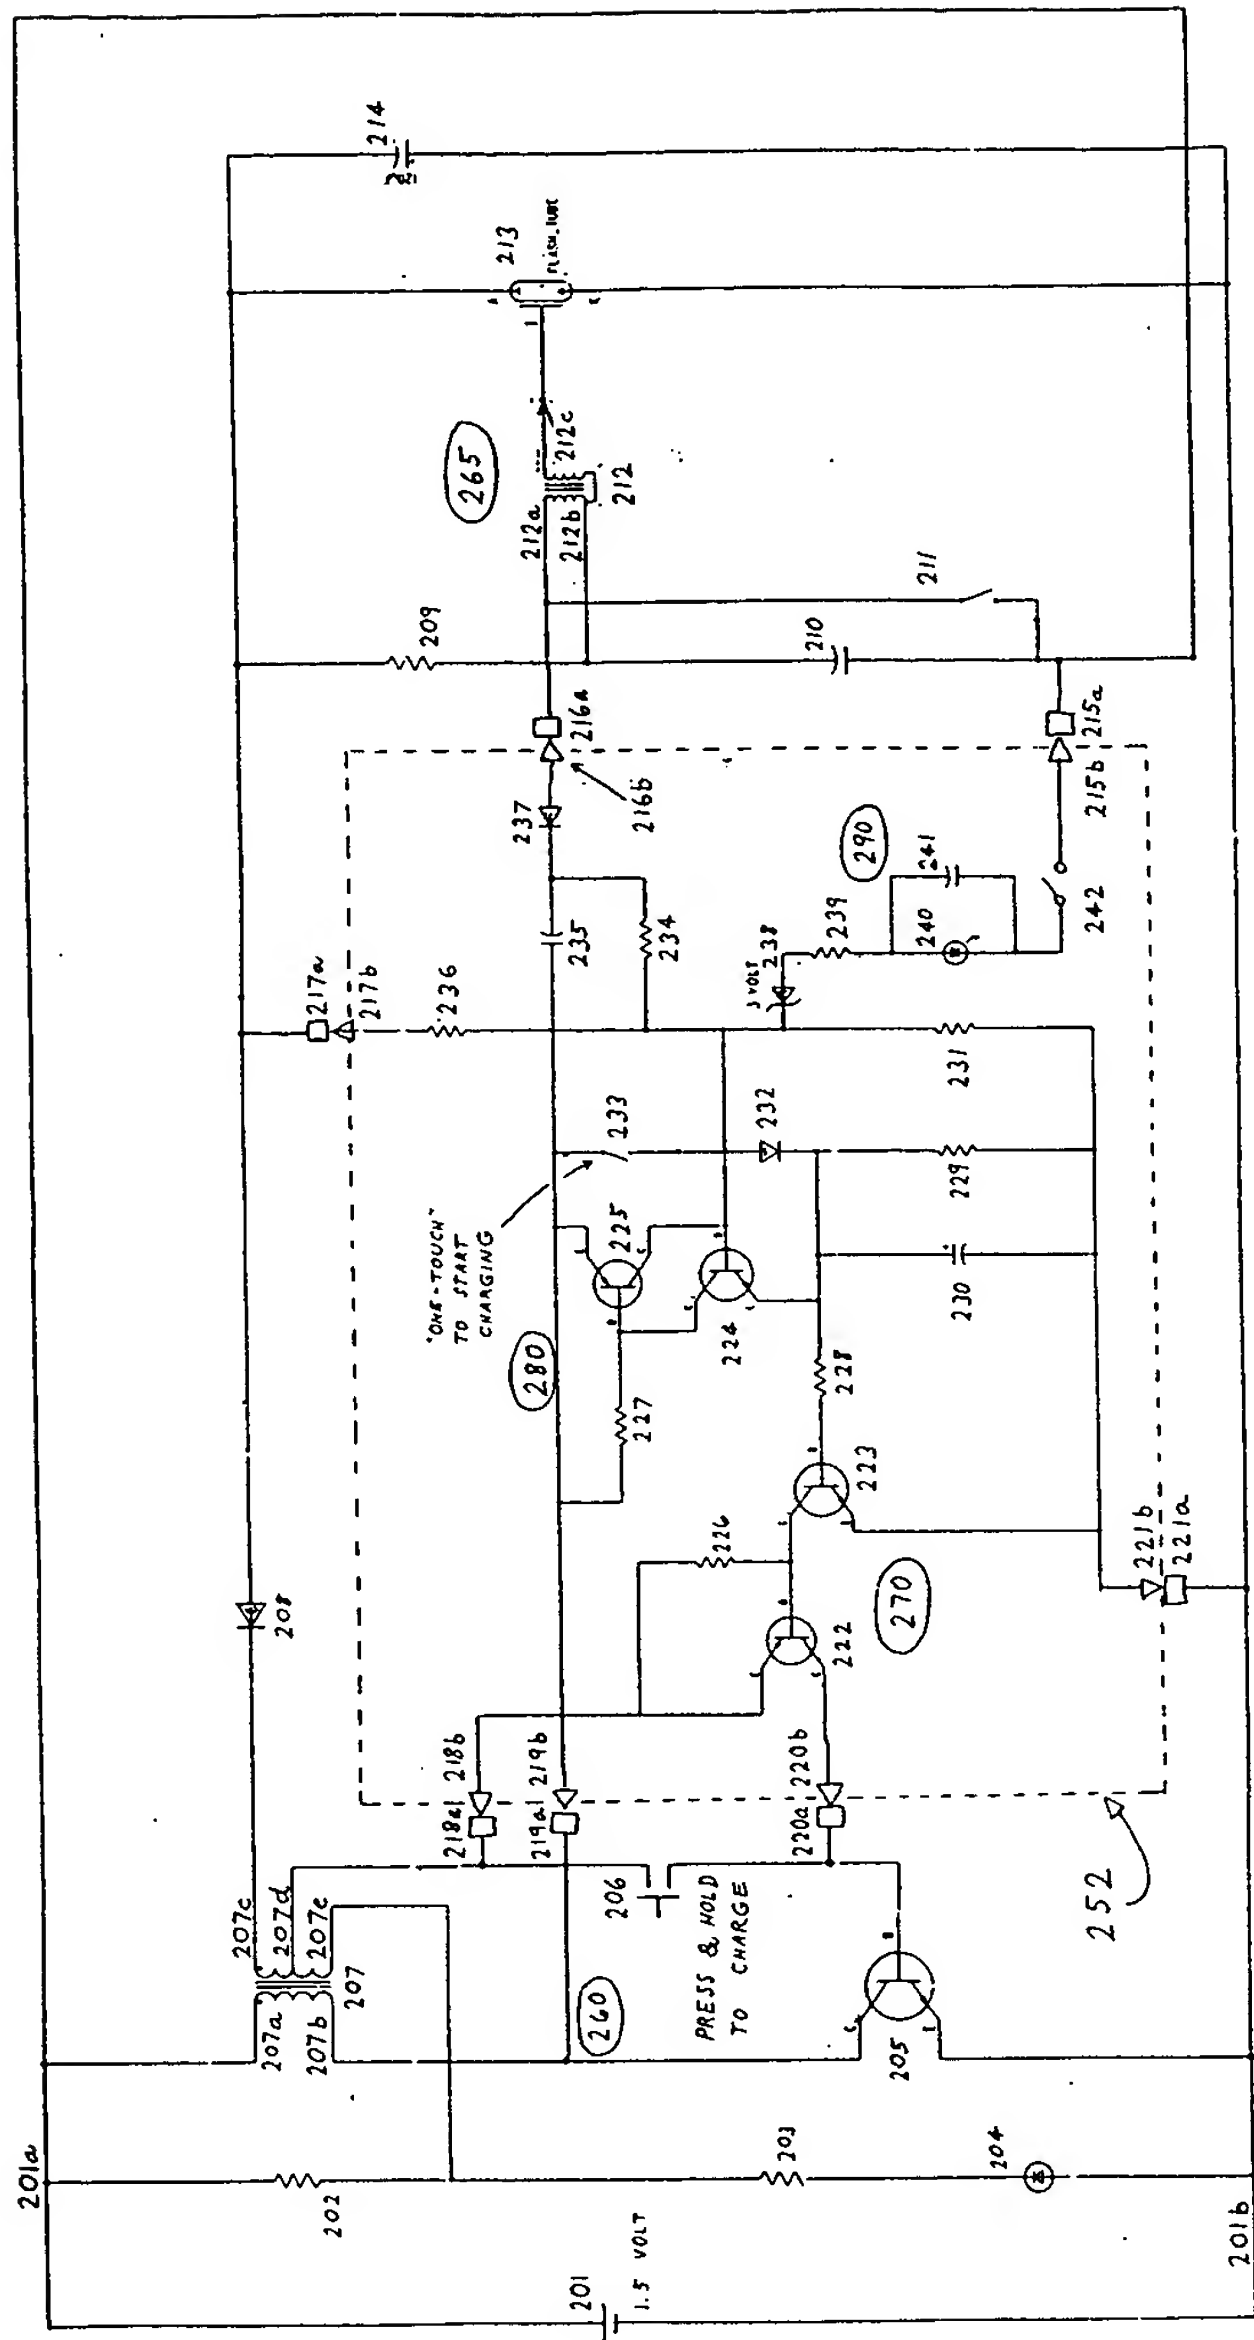

FIG. 8

embodiment of a 1st circuit with one embodiment of a 2nd circuit that cooperates with the 1st circuit to a second set of camera functions

TOP SECRET

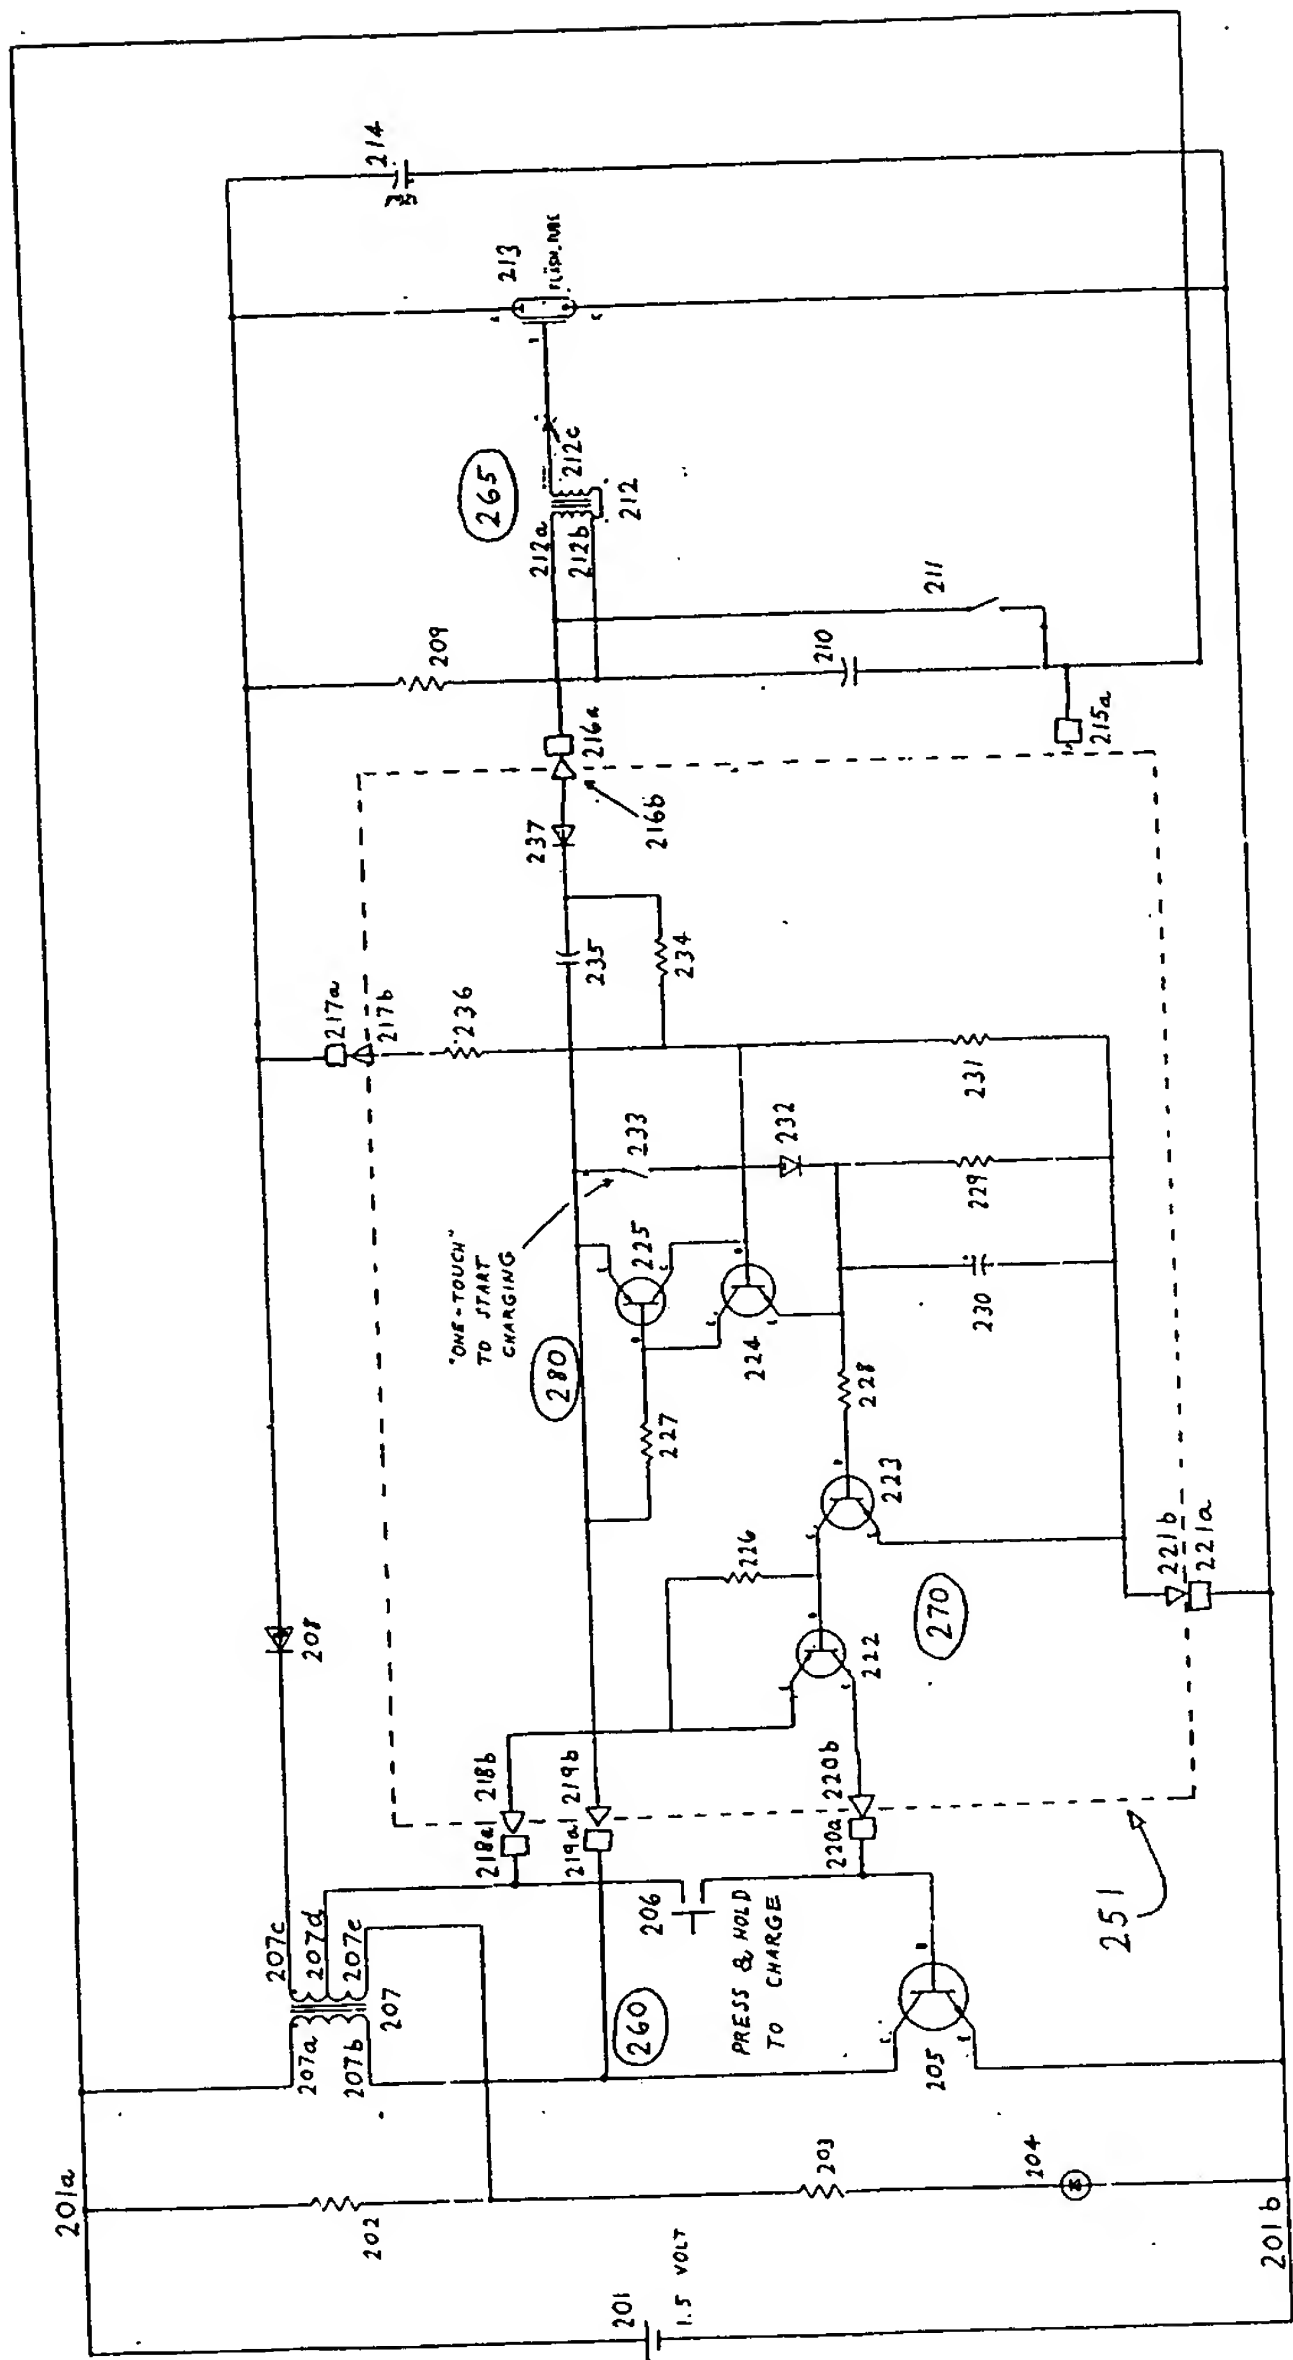

FIG 9
another embodiment
of a 2nd circuit that
cooperates with the 1st circuit
to perform a third set
of camera functions

FIG. 10

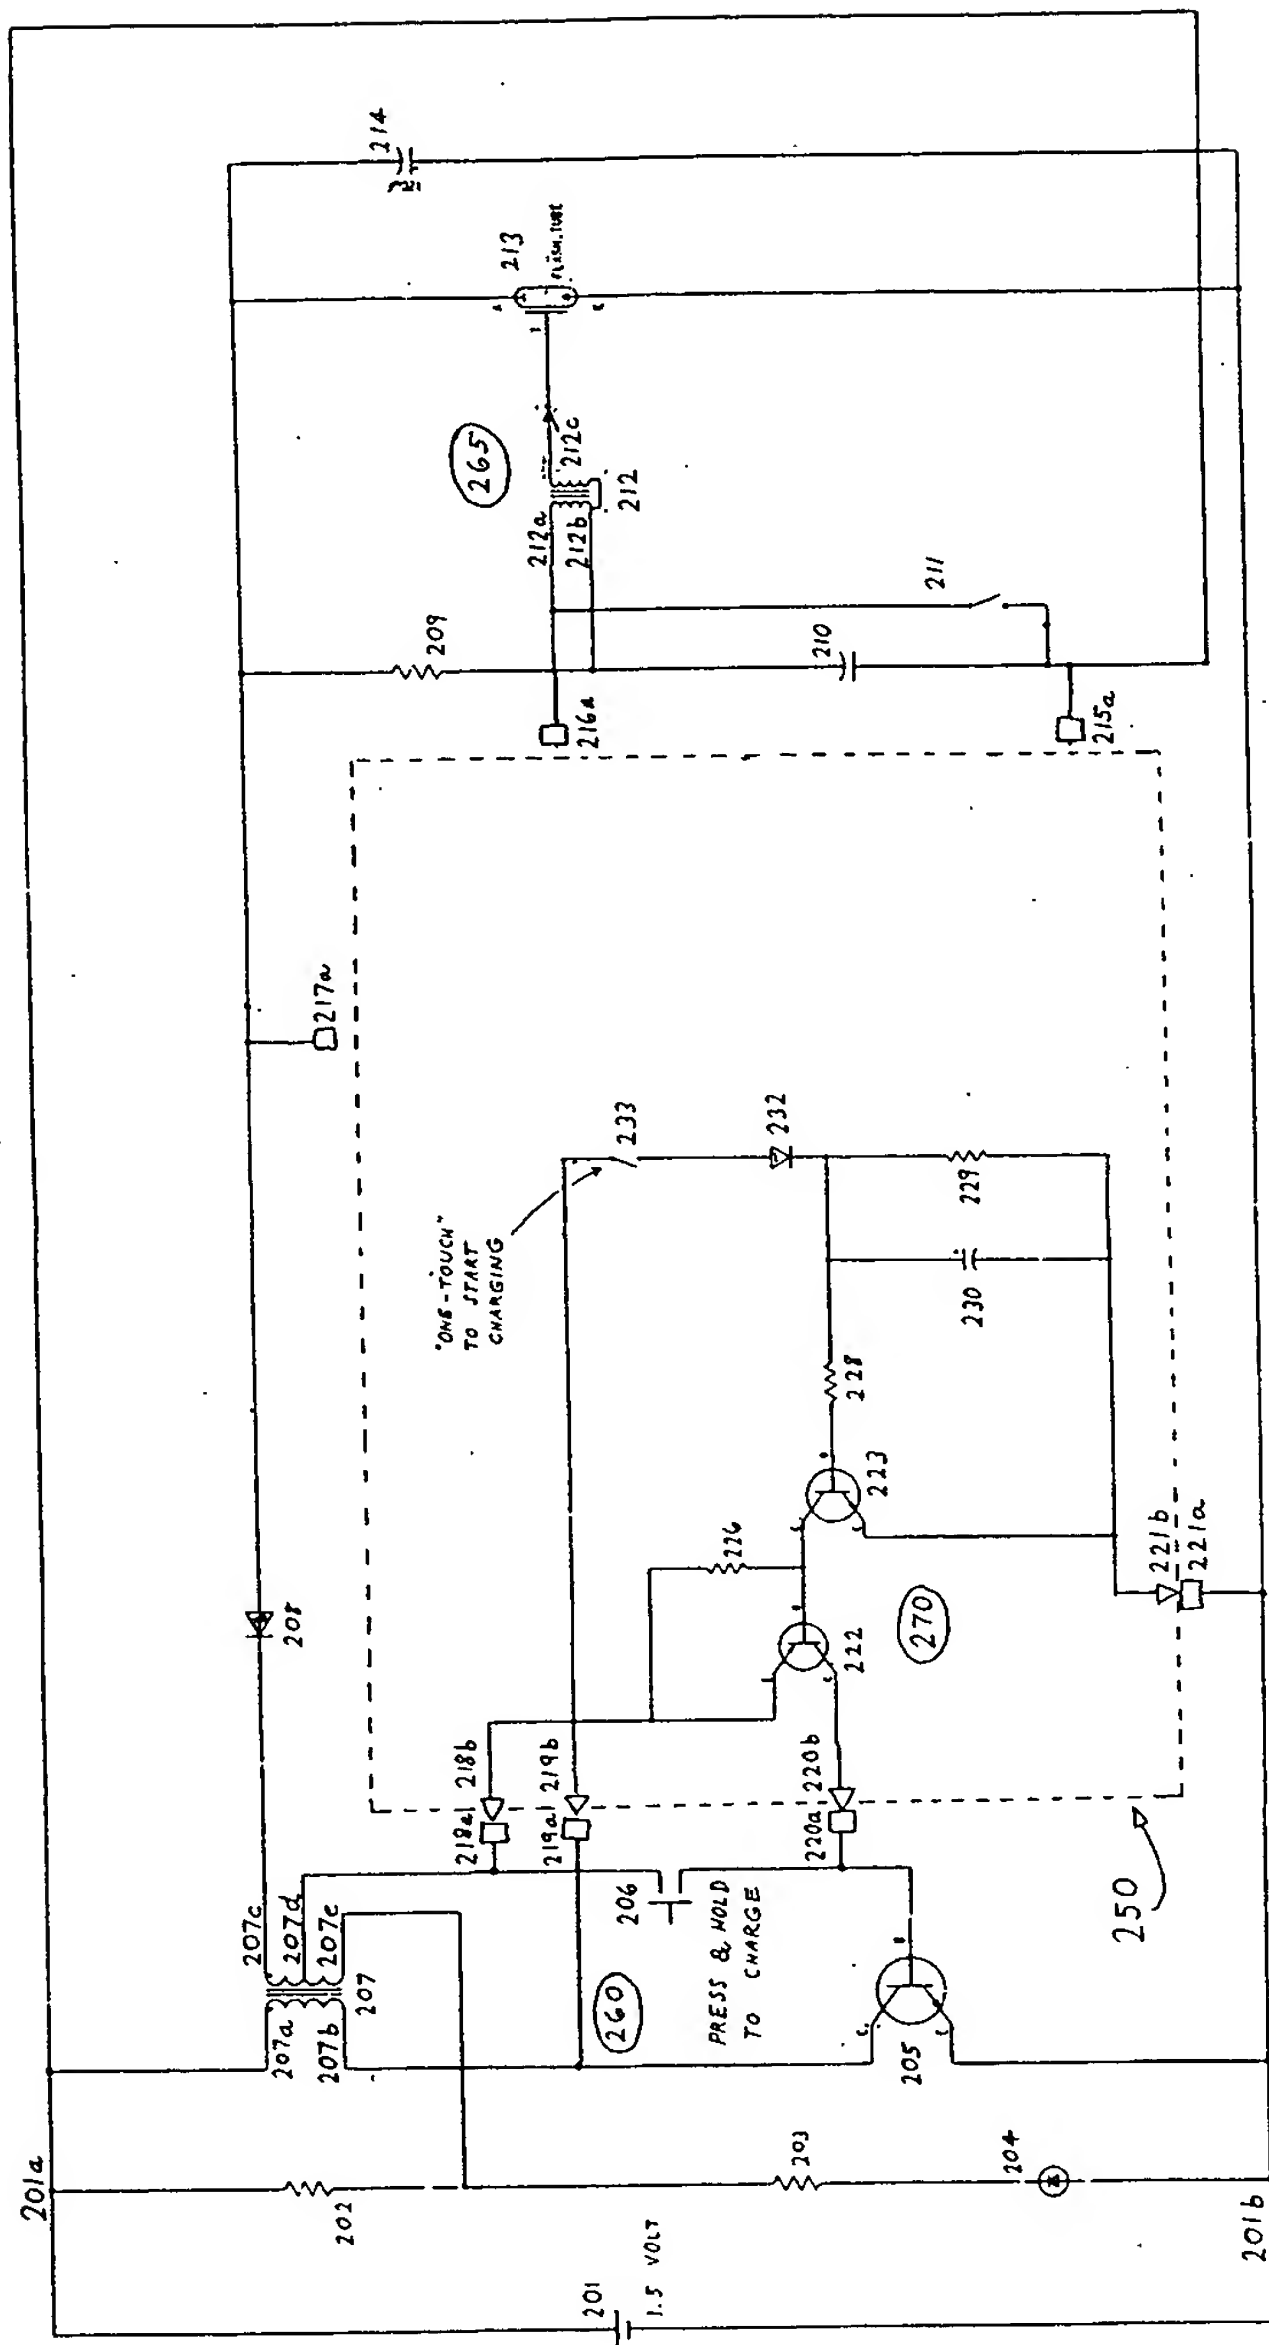

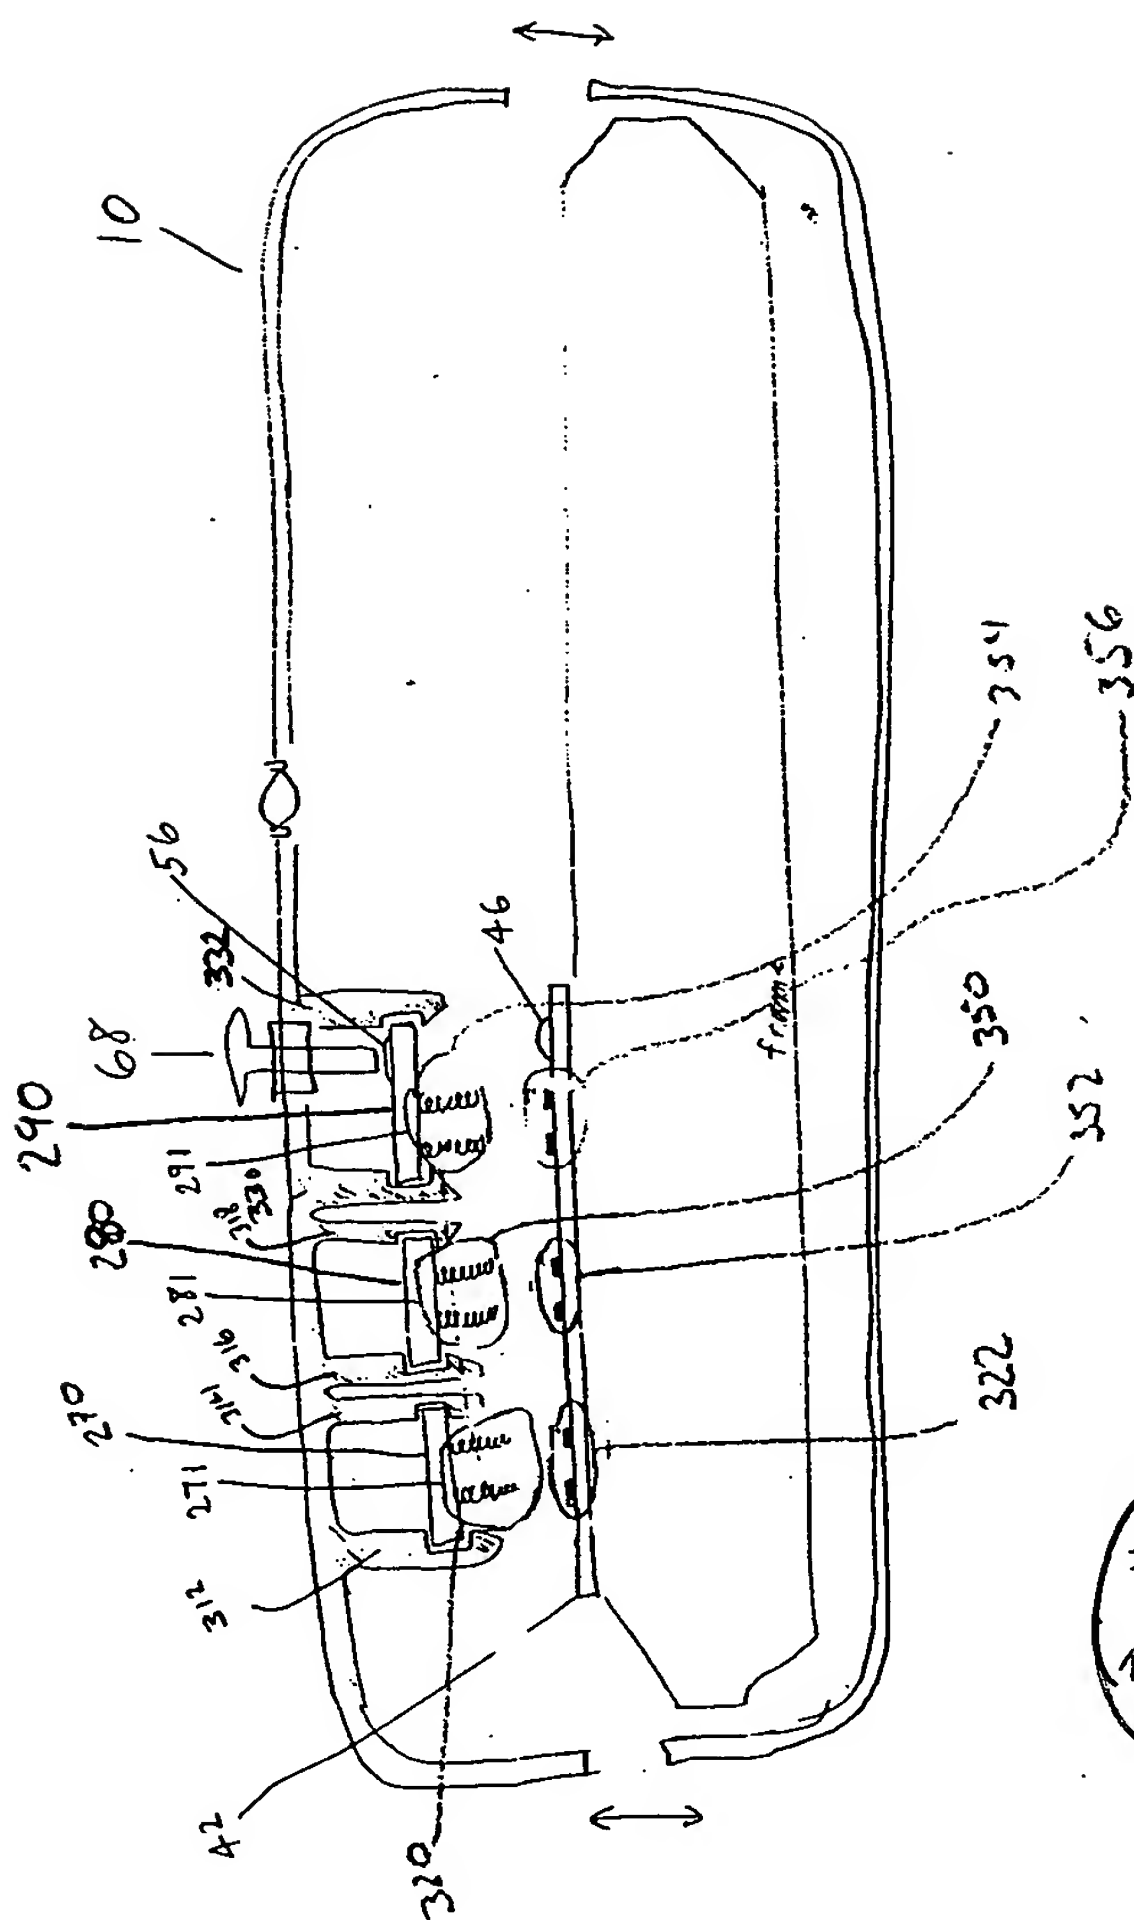

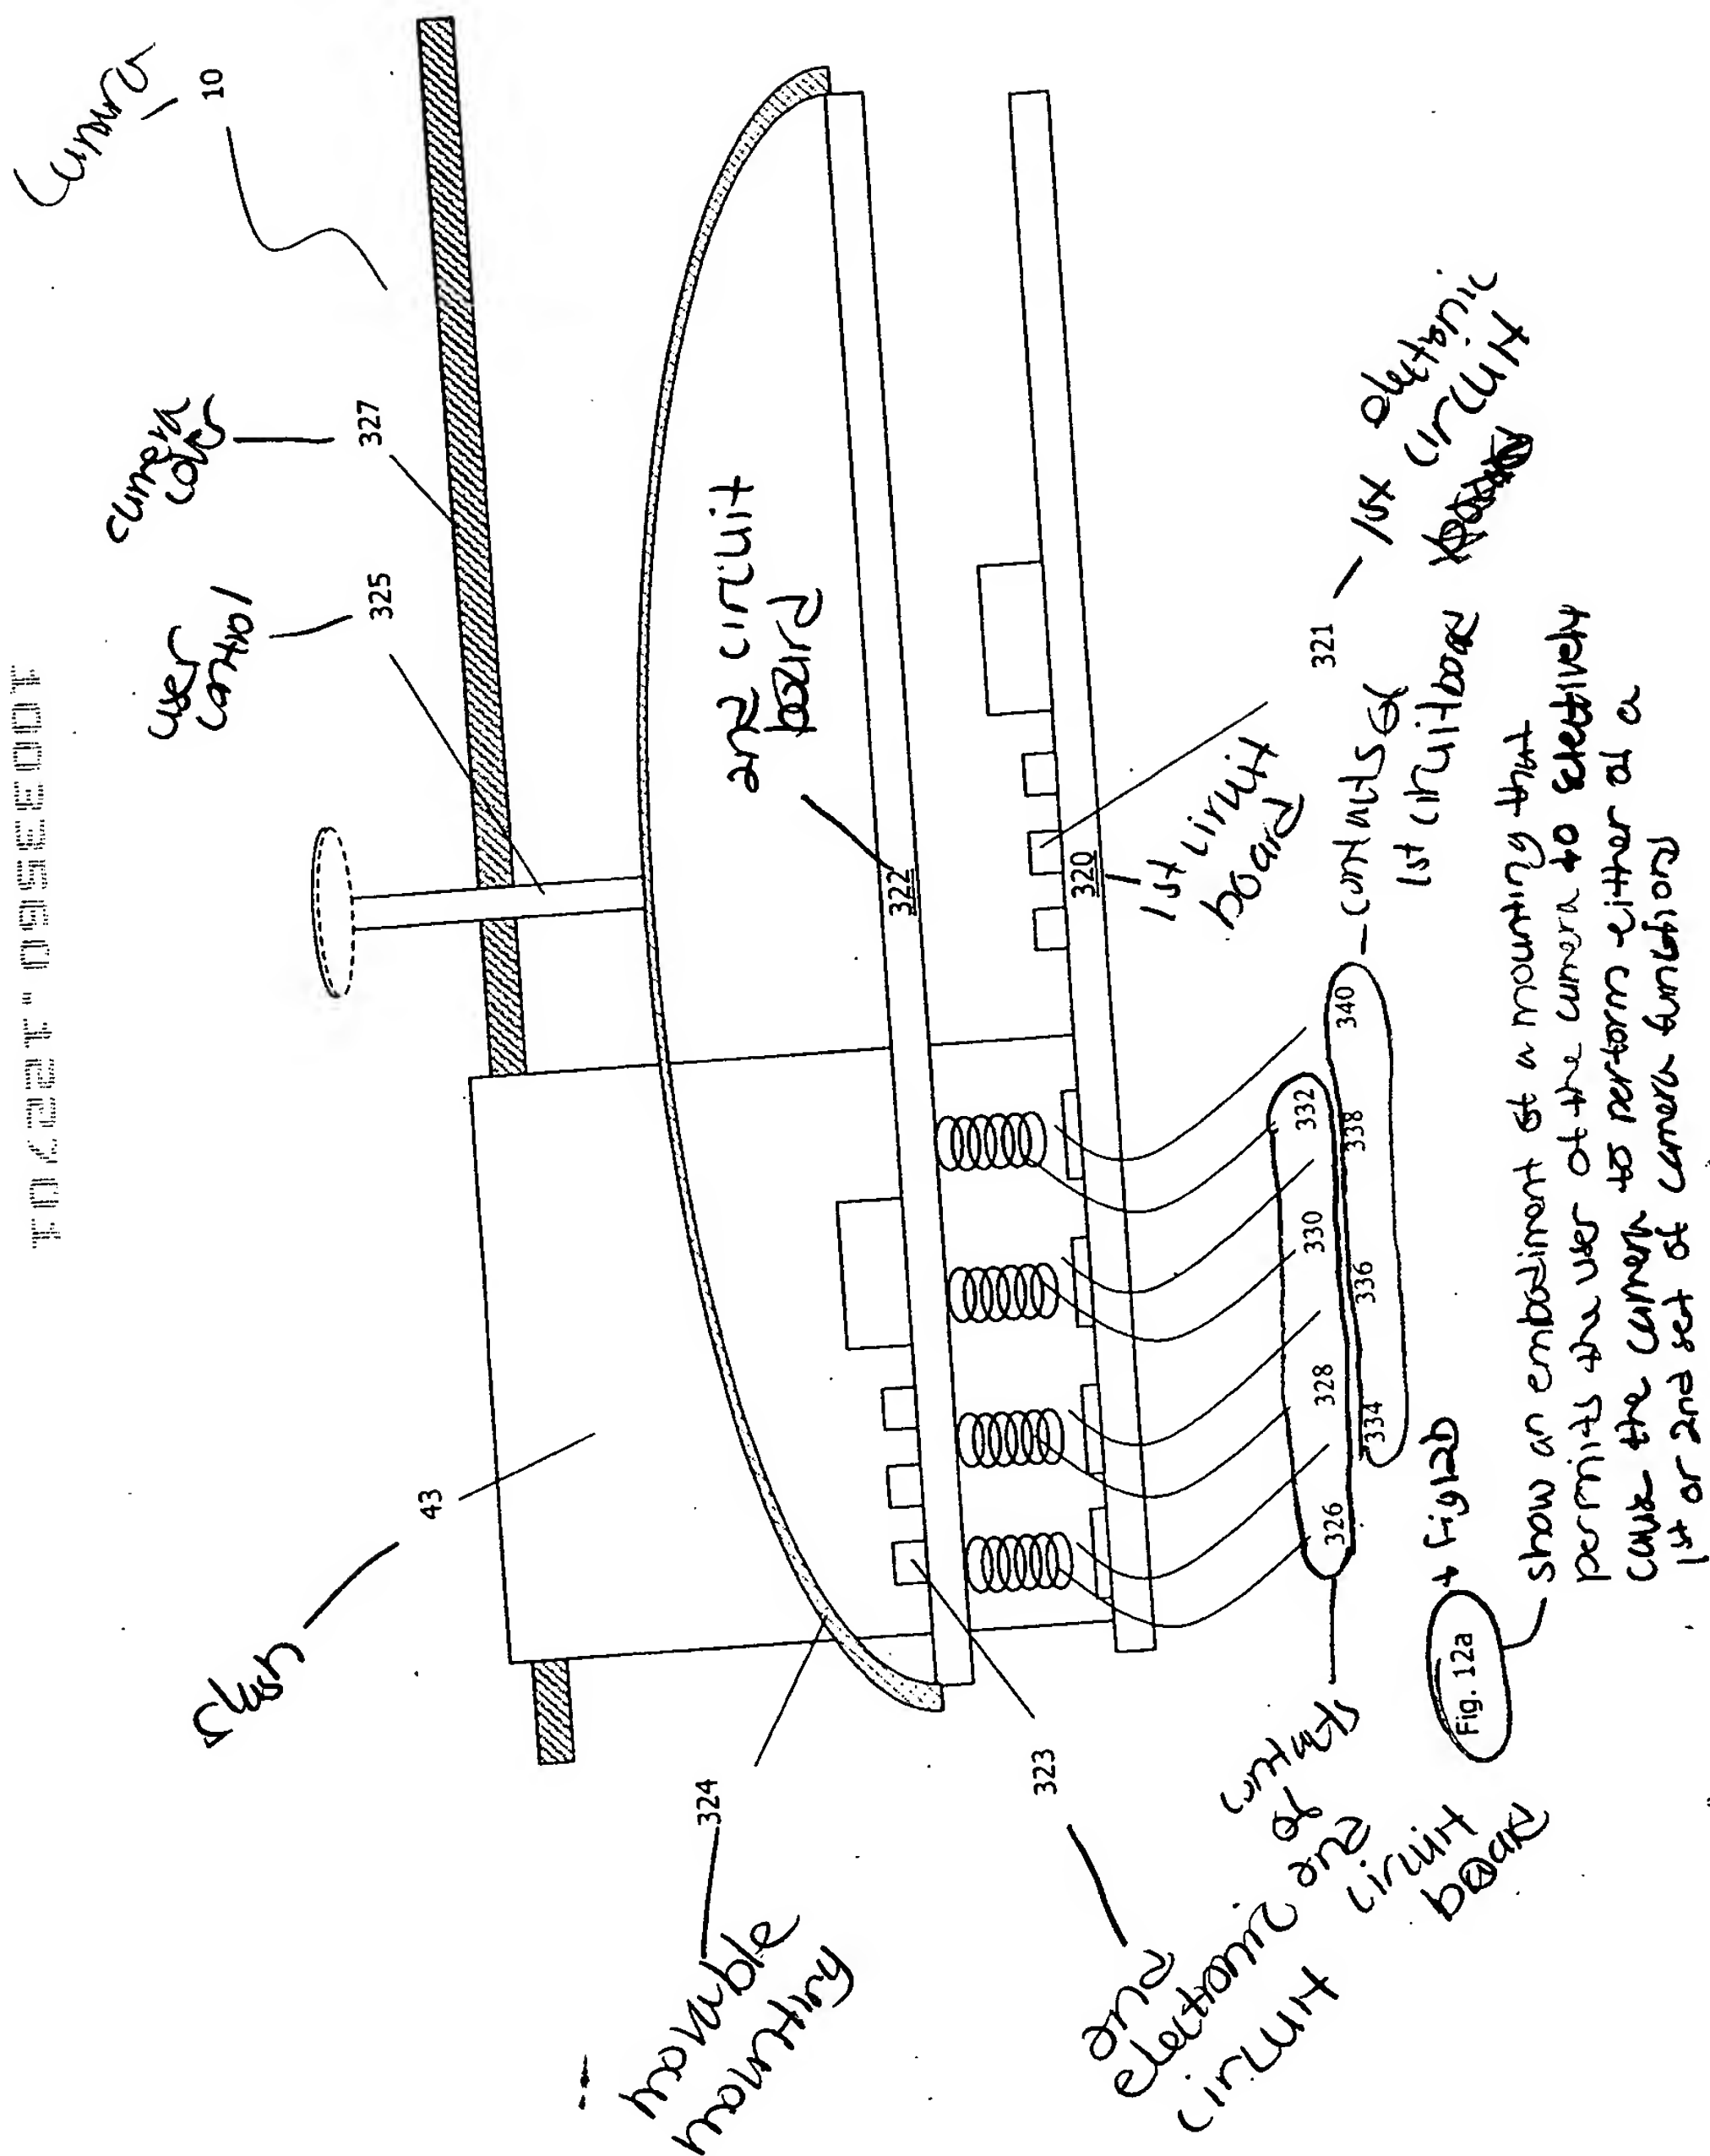

FIG. 10 - a combination of 1st circuit of Fig. 7 with still another embodiment of a 2nd circuit that cooperates with the 1st circuit to perform a 4th set of camera functions.

one embodiment of a camera that receives a signal from a module or components
